

DAN DRYER CRI CRI 369

Electronic insect killer

Mains electricity
2-year warranty

DAN DRYER CRI CRI eliminates bugs in an effective and hygienic manner. The insect killer lures in insects by emitting UV-A light with a wavelength of 365 nm. The UV-A light mimics the reflective sunlight from water surfaces like lakes or puddles and tricks the insects into thinking they found the ideal place of living. The product is easy to maintain, and lures insects effectively from all angles.

Application

DAN DRYER CRI CRI 369 electronic insect killer. An easy and effective solution for handling insect problems. Action range of 10-12 m. Only for indoor use.

References

Private households, small or medium-sized shops, restaurants, retail business, hotels and leisure, airports, schools, sport facilities and nurseries.

Technical data

Type	CRI CRI: 369 Insect killer with handle
Dimensions	H 290 x B 380 x D 100 mm
Material	ABS and PC Plastic Corrosive resistant metal.
Connection	230 VAC, 50 Hz
Insulation class	Class II 
IP rating	IP X3
Total wattage	45 W
Lamp properties	UV-A actinic light
lightbulb-lifespan	2000 hours
light wavelength	365 nm
Lightbulb effect	2 x 15 W
Net weight	2,40 kg
Gross weight	2,55 kg

Activation

Plug in the wall socket to activate the actinic light. Insects that approach too close to the inner grid, will be destroyed by 5000 volts of electricity.

Installation

It is recommended to mount the insect destroyer at a height of 1,5-2 meters from the floor and at least 2 meters from people.

IMPORTANT!

Not for outside use. Never use when in proximity to flammable gasses or liquids.

Compliance

CE, WEEE

Tender text

Standing or suspended in air, electronic insect destroyer of ABS and polycarbonate. Corrosive resistant metal.
Net weight: 2,40 kg. H: 290 x B: 380 x D: 100 mm.
