

AIRTOX GL66 safety boot

G-Force

NEW, Lightweight safety boot with rough sole profile in transparent TPU

Launched in September 2023

High-tech safety boot characterized by a number of super features, such as the revolutionary nail protection: **Whitelayer®** – strong as steel and soft as a cloth. Equipped with specially made ergonomic aluminum toe cap. The upper part is made in one Nanotech microfiber and is light and water resistant. The soles are made with the Airtox AIR-system and sprayed on in liquid form with its latest and most advanced robotic technology on the market to date. The fit is wide and the shoes can be used anywhere.

Developed and designed in Copenhagen. Sewn in Brazil and assembled in Germany.

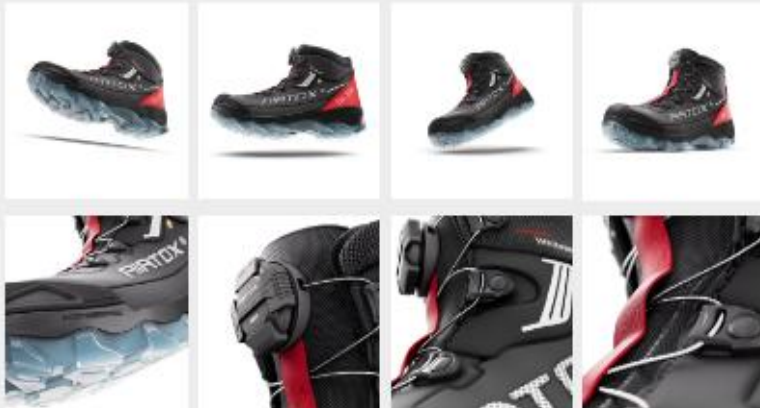

Color combination:

UPPER:
charcoal black with solid red

SOLE:
charcoal black with transparent bottom

EN ISO 20345:2011 S3 SRC ESD
