 H823617 WC Combi, raised, vertical outlet
 H823618 WC Combi, raised, horizontal outlet

Technical drawings

Deep by JIKA seat with cover is made from duroplast material and it is suitable for all toilets of the series of the same name. The seat is solid in shape, harder to the touch and, thanks to these properties, perfect in design. The SlowClose mechanism brings noise down and safety up by decelerating the seat and cover closing speed. In addition the toilet maintenance is facilitated by fast assembly and disassembly of the seat and cover thanks to the "click" system. The product includes steel hinges. We provide a 5-year warranty on the seat and cover.
