

# 11-605

Finger tip coated glove for light and delicate applications

Multi Purpose

## Lightweight industrial gloves that blend dexterity and sensitivity for delicate handling

- **Heightened tactility:** HyFlex<sup>®</sup> 11-605 polyurethane gloves boast high tactile sensitivity, thanks to a number of characteristics, including finger-dipped polyurethane coating
- **Greater choice:** While these HyFlex<sup>®</sup> gloves are finger-dipped, enhancing their tactile sensitivity, near-identical HyFlex<sup>®</sup> 11-600 and 11-601 models are palm-dipped, for added protection
- **Augmented dexterity:** HyFlex<sup>®</sup> 11-605 safety gloves are also lightweight, flexible and dexterous, making them ideal for the precise handling of small, delicate components
- **Elevated comfort:** Designed with a knitwrist cuff, they ensure reduced hand fatigue and enhanced comfort
- **Improved durability:** The HyFlex<sup>®</sup> 11-605 model satisfies ANSI/EN abrasion resistance standards, for longer wear

### Industries

- Automotive
- Machinery and Equipment
- Metal fabrication

### Applications

- Assembly & inspection of components
- Assembling and mounting components
- Adjusting systems and screwing

# 11-605

Finger tip coated glove for light and delicate applications

## Key Features

- **Finger-dipped:** Maximum tactility for perfect precision handling
- **PU coating and nylon liner:** For added lightness and dexterity
- **Light color:** PPE gloves suited to less dirt-prone applications

## Vulcanization Chemical Accelerators

- Natural rubber proteins

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.

## Performance Standards & Regulatory Compliance

### REACH Compliant

## Specifications

HyFlex® 11-605	<b>Finishing:</b> Fingertip Coated <b>Liner Material:</b> Nylon		6, 7, 8, 9, 10	195-230 mm 7.67-9.05 inches	• 12 pairs in a bag; 12 bags in a carton
