

Performance/Declaration of Conformity and certificates for all products traded by HANS NIELSEN'S EFTF. APS.

HANS NIELSEN'S EFTF. APS has observed an increase in official market surveillance and control in Denmark, where the Danish Authorities undertake market controls of a range of products and building materials. The objective of such controls is to remove all products and building materials that do not meet the legislative requirements in order to ensure that all products and building materials marketed and sold in Denmark are safe and legal. The Authorities' controls include product documentation and, in some cases, laboratory tests of the product.

Therefore it is essential that HANS NIELSEN'S EFTF. APS possess all the necessary documentation of each product, including the exact CE certificate with declared requirements, a Declaration of Performance/Declaration of Conformity, and any installation guidelines (if applicable).

For these reasons HANS NIELSEN'S EFTF. APS kindly asks The Supplier to sign the attached document and return it to us along with copies of all Declarations of Performance/Declaration of Conformity and any certificates documenting that the products supplied and sold by The Supplier to HANS NIELSEN'S EFTF. APS fully comply with all legal requirements.

Please return a completed version of the document below along with Declaration(s) of Performance/Declaration of Conformity and Certificate(s) to Hans Nielsen's Eftf. ApS via E-mail at pl@ha9.dk at your earliest convenience, and at the latest together with the return of the signed Agreement.

If HANS NIELSEN'S EFTF. APS has not received the signed "Statement regarding Compliance with CE Marking Requirements", "Declaration(s) of Performance (DoP)", "Declaration of Conformity (DoC)" and certificates for your products' CE marking - or information stating that your products do not require CE Marking - at the latest together with the signed Agreement, this will be considered as an indication that The Supplier does not want to observe one or more basic conditions for the co-operation with HANS NIELSEN'S EFTF. APS.

Statement regarding Compliance with CE Marking Requirements
