AL Hit Weld is a good choice particularly for welding work: the heat-resistant sole withstands temperatures up to 300°C and the stitching is in heat-resistant Kevlar. The FlexEnergy heel component, the world's most advanced shock-absorbing heel, gives 55% energy return. The product meets the requirements of standard EN ISO 20349-2:2017, footwear protecting users against the heat risks and molten metal splashes occurring in welding work.
