

User Manual

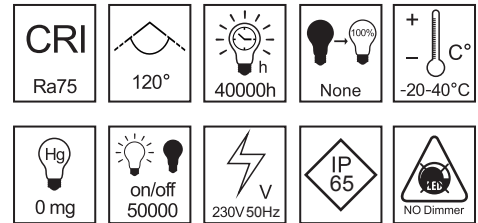

Slim Line LED Floodlight 10W-200W

1. Housing
2. Tempered Glass
3. Tightening Screw
4. Bracket
5. Rubber Cable
6. LED SMD Chip

INSTALLATION-Surface Mounting

1. Do not remove any part of the fixture.
2. Check the specification on the label.
3. Use expansion bolts to secure the fixture on mounting surface.
4. Keep enough length wires to ensure adjusting angle unhindered.
5. Connect wires into wiring terminal, fix them by screws.
6. Ensure there is adequate free air circulation of at least 100mm around the fitting. Consider any fire risk and take appropriate precautions.
7. The nearest illuminated surface must be at least 0.5m from the front of the fitting.

Safety Instructions

1. Disconnect power before installing or servicing. The fixture must be wired in accordance with the National Electrical Code and applicable local codes and ordinances.
2. All wiring should be performed by a qualified electrician.
3. The fixture is for outdoor use and should not be used in areas with limited ventilation or high ambient temperatures.
4. If the fitting incorporates control gear, ensure careful sizing to avoid instances of nuisance tripping of the protective device used in the installation.

GUARANTEE

This product is guaranteed for a period of 2 years from the date of purchase. The guarantee is invalid in the case of improper use, tampering, removal of the Q.C. date label, installation in an improper working environment or installation not according to the current edition of the I.E.E. Wiring Regulations (BS7671). The guarantee is also invalidated if the luminaire has been Mega tested. Should this product fail during the guarantee period it will be replaced free of charge, subject to correct installation and return of the faulty unit. We do not accept responsibility for any installation costs associated with the replacement of this product. Your statutory rights are not affected. We reserve the right to alter specifications without prior notice.
